Aman Sharma

Bringing over 3+ years of specialized expertise in React Native and a total of 3.5+ years' experience across various domains. Eager to explore new native app domains and leverage my skills in crafting custom B2B applications in a software-driven role.

Work Experience

- **Debut Infotech**
  Sep 2023 - Present

- **Ittechxpert**
  Nov 2020 - Sep 2023

Projetcs

Baby Journey - Debut Infotech
The Baby Journey Sweden based parenting mobile app, designed for pregnant women to track their pregnancy week by week and continue monitoring their child's development into the toddler years.

Catalyst - Debut Infotech
Developed a web application to enhance gaming knowledge through interactive card-based quizzes. Users guess the correct answers, with admins managing and assigning cards. The app features a swipe interface to reveal answers, promoting an engaging learning experience.

CETA - Bio Metrics - Ittechxpert
Its a South African government initiative. The app uses facial recognition technology to track student attendance for stipend purposes. I expanded the system to allow attendance from unassigned locations, upgraded data management by switching from AsyncStorage to SQLite.

Roadside Response - Ittechxpert
Roadside Response is a leading Independent Roadside Assistance provider with over 20 years of industry experience. Which provides services for if vehicle locked, Vehicle Breakdown, Tyre puncture etc situations. I contributed to merging essential services like Uber.

Traya - Ittechxpert
I played a key role in enhancing the Traya app's video functionality, including interactive thumbnails and robust video navigation. I also implemented user authentication, requiring signup or login to access the comment section, promoting a stronger user community.

Rocketship - Ittechxpert
Forthcoming Temple Engine web app emphasizing user interface design and an admin dashboard for superadmins to manage administrators and optimize web visibility with SEO buttons.
